Aviation Security

SCI is structured around the belief that the most important asset we contribute is the ability to help our clients pre-empt and avoid potential disruption to their business.

SCI provides the following services for the aviation industry:

- Quantitative threat assessment for airports and airlines.
- Security design and project management.
- Aviation security master planning and systems design and specification.
- Baggage X-ray and checking systems.
- Bomb threat response planning and explosive protection for baggage X-ray systems.
- IT security consultancy, disaster recovery and computerised risk analysis.
- Security cost reduction consultancy and manpower reviews for aviation facilities.
- All forms of security training and project security seminars for aviation facilities.

SCI's Aviation Projects and Experience

Security Consultancy has many years' experience working in the aviation industry. Projects on which our consultants have worked include:

- Royal Saudi Air Force, Jeddah, Saudi Arabia.
- King Abdulaziz International Airport, Jeddah.
- King Fahd International Airport, Dammam, Saudi Arabia.
- John F Kennedy International Airport, New York.
- Miami International Airport, Miami, Florida, USA.
- Pan American World Airways, Rockleigh, New Jersey, USA.
- Heathrow, London, UK
- Eastern Airlines, US nationwide.

- Luca Airport, Malta.
- Air India, Heathrow, London, UK
- Saudi Arabian Airlines, London, UK.
- Athens International Airport, Hellenikon, Greece.
