The company is a Consultancy of 22 specialist security consultancy companies trading as Security Consultancy International Pte Limited to provide security design and turnkey management services for clients particularly in Europe and the Middle and Far East.

The Consultancy can provide a wide range of services from risk analysis using new techniques through security consultancy and design to security project management as shown below:

- Quantitative threat assessment
- Security design and project management
- Special security consultancy for oil and gas, power, water and aviation facilities
- Security planning for banks and financial services companies
- Banking and finance business continuity
- Anti-terrorist planning and explosive protection
- IT consultancy and disaster recovery
- Information security and computer hardware and software security
- Communications security
- Counter eavesdropping inspections and encryption
- Corporate counter intelligence and competitor analysis
- Security cost reduction consultancy and manpower reviews
- VIP and close escort protection and defensive driver training
- All forms of security training, project security and seminars

The Consultancy's members shown overleaf have unparalleled expertise and capability to carry out all the above services internationally through a network of overseas offices and agencies.

We can provide clients with the following major benefits:

- ❖ New and innovative cost saving techniques developed by the wide variety of companies in the Consultancy.
- ❖ The supply of consultants with very high skill levels but at much lower overhead costings than the other major consultancies.
- ❖ An ability to provide both independent consultancy and, if necessary, turnkey management of the installation of security systems which is a major requirement for the Middle East and Far East markets.
- ❖ The Consultancy has the ability to bid for major security projects such as head office buildings, power and desalination facilities and defence projects. The Consultancy is a member of The Association of Police and Public Security Suppliers (APPSS).
